The testing undertaken in this competition is subjective and the main objective is to promote the good work of water service providers in Victoria to the broader industry and community.

On behalf of \_\_\_\_\_,

I understand and accept the terms and conditions of this competition and that the sample provided for this test is from a source which has had no serious water quality incidents in the last 12 months.

Only the identity of the four grand finalists and the supplier of the winning sample will be announced - Grand Final or Heat samples will not be ranked, nor will any of the scores be released.

I further agree to participate in promotional opportunities (including a presentation) if the sample is deemed the winner.

The decision of the judges is final.

**Signed**
