Lifestyle ... The Clarence Valley is part of the vibrant Northern Rivers region of NSW which has become Australia's premier lifestyle region. The Council area encompasses a diverse set of environmental features, cultures, traditions, communities and industries, and includes the idyllic environments of Yamba and other coastal villages.

Council comprises an area of 10,440 km², employs about 600 staff, operates 5 administration centers, 10 works depots and serves approximately 50,000 residents and ratepayers living in 44 towns, villages and city environs.

The purpose of the position is to:

- To assist with delivery of high quality services in relation to the Upper River Sewage Treatment Plants, ensuring compliance with operation requirements of STP licences, effective and efficient methodology, quality standards, procedures and documentation
- To be Operator in Charge of Clarence and Coutts Crossing STPs
- Provide timely, accurate and succinct information on Council issues
- Ensure that activities comply with all WHS policies and procedures

To be successful in the position you will need:

- Wastewater Treatment Operator Part 2 (Advanced Treatment); or 1B Activated Sludge and Aerated Lagoons
- Class C Drivers Licence
- WHS Construction Induction Training Certificate (NSW) or equivalent recognised in NSW
- Demonstrated experience in a similar role
- Work supervisory skills, the ability to organise the duties of staff and to resolve conflict
- Communication skills including the ability to liaise with the public
- Clerical, administration and organisational skills, including the ability to work with minimal supervision
- A demonstrated commitment to and knowledge of Work Health & Safety requirements
