

# WIOA Practical Guides

The Water Industry Operators Association of Australia has coordinated the production and distribution of a series of “practical guides” to the operation of key steps (control points) in the delivery of water and wastewater services to communities.

The guides have been produced by Australian water industry specialists all with significant practical operational experience in Australian conditions.

**A resource every operator should have!**

## Membranes

A new practical guide released in 2021 aimed at all operators and managers that operate and maintain membranes

**NEW  
MEMBRANES  
GUIDE**

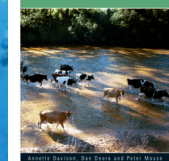

### Practical Guide to the Operation & Optimisation of Microfiltration & Ultrafiltration Membrane Processes

Kathy Northcott, Greg Creek and Peter Mosse

### Practical Guide to Understanding and Managing Surface Water Catchments

Robyn Davies, Don Green and Peter Mosse

### Practical Guide to the Optimisation of Chemical Dosing, Coagulation, Flocculation and Clarification

Steve Walker and Peter Mosse

### Practical Guide to the Operation and Optimisation of Media Filters

Steve Walker and Peter Mosse

### Practical Guide to the Operation and Optimisation of Chlorine and Chloramine Disinfection

Steve Walker, Steve Walker and Peter Mosse

### Practical Guide to the Operation and Optimisation of Distribution Systems

Peter Mosse and Don Green

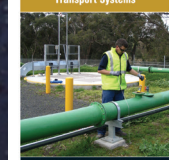

## Water Treatment

The series of six practical guides aimed at water operators and managers covers:

- Catchment management issues
- Chemical addition and primary solids removal
- Media filters
- Chlorine disinfection management
- Water distribution system operation

### Practical Guide To Odour Control in Sewage Transport Systems

Steve Walker and Peter Mosse

### Practical Guide to the Operation and Optimisation of Activated Sludge Wastewater Treatment Plants

Steve Walker and Peter Mosse

**TESTIMONIAL** I've sat back and had a quiet and objective read through the Chemical Dosing, Coagulation, Flocculation and Clarification Practical Guide. It's a masterpiece!

Seriously, it's right up with the best in terms of a single, practical guide to these very important unit processes in water treatment. At the price, it is unbelievable value! Congratulations to WIOA and to the authors for pulling it off. It is a very valuable reference.

*Peter Gebbie, Principal Engineer -Process Design*

## Wastewater Treatment

Two practical guides aimed at wastewater operators and managers covers:

- Odour Control in Sewage Transport Systems
- Operation and Optimisation of Activated Sludge Wastewater Treatment Plants
